SIMONE DALLEDONNE
Innovation Management Engineering

ABOUT ME

Hi, my name is Simone Dalledonne, I am a very go ahead, curious, and ambitious guy. I participated in many university projects, but also extra-university projects (such as Silicon Valley Study Tour), which helped me to develop many soft skills (teamwork, leadership, decision making, stakeholder management, communication, etc.). The desire to get involved into new challenges has led me to work in Freesho, a startup whose mission was to digitize the small-medium retailer through interactive Virtual tour. In this experience I developed business development and management skills, and I learned to use Everpano and Matterport, software for Virtual Reality. I have a great interest in new technologies, in particular Blockchain Technology and AI.

EXPERIENCE

- **FREESHO**, Startup in Cassino (FR,ITA) — *COO & Co-founder*
  November 2020 – November 2021

- **Silicon Valley Study Tour**, Redwood city (CA,USA) — *Social Media communication & Board Member*

- **Silicon Valley Study Tour**, Redwood city (CA,USA) — *Selected student*
  August 2019
  This is a project that has selected the best Italian students to visit Stanford and Barkeley university, and the big companies in the Bay Area such as Google, LinkedIn, Cisco, Macy's, McAfee and many others.

- **ILPE srl**, Omegna (IT) — *Workman stage*
  June 2015 - July 2015

- **Master thesis**, Tallinn (EE) - *Master student at TalTech*
  August 2021 – March 2022
  Living in Tallinn allowed me to understand the key success factors of Estonia innovation and the basics of e-Governance. Thanks to TalTech and events based on technology: Robotex, Cyber and Space Security Conference (CSSC), visit to the e-Estonia briefing center, e-Governance conference

EDUCATION

- **Politecnico di Torino,** Turin — *Master Degree in Innovation Management Engineering*
  September 2020 –March 2022
  This MSc allowed me to develop many skills in management fields like Project Management, Risk Management, Economy Theory (Game Theory, Cost transaction theory), Strategy, Firm Organization, Informatic System, Entrepreneurship, Product Development, Innovation Management. Within the courses, I showed my ability in team working and adapting to different situations, finding problems solution through the team resources management.
  My MSc thesis was written in collaboration with Tallinn University of Technology for 6 month. It concerns the implementation of AI-based services to help high school student in their post-high school transition. TalTech allowed me to improve my knowledge about e-Governance, society digitalisation, AI, cybersecurity, space management, and Blockchain.

- **Politecnico di Torino,** Turin — *Bachelor Degree in Management Engineering*
  2016 - 2020
  Thesis: Blockchain Technology applied to renewable energy and the new market "Prosumer to Consumer" (P2C)

CERTIFICATE

- **Blockchain Innovation Manager**, Udemy
  July 2020; Blockchain basics (Bitcoin, Ethereum, Smart contract)

- **IPMA Italy Introductory Level**, Ipma Italy
  June 2021; It certificates my project manager skills learnt during my master degree

- **Masterclass Excel,** Tutored
  May 2021; Advanced level of Excel

- **Element of AI,** University of Helsinki
  September 2020; AI technology basics

- **Google digital training,** Google
  September 2018; Digital marketing basics and Google digital marketing support tools

- **MasterZ,** AIO Blockchain Lab
  January 2022- present (mid of June 2022); Advanced knowledge on blockchain technology (Algorand, Tokenomics, DAO, Layer 2), project work: new tourism ecosystem based on blockchain

CONTACTS

- 07/10/1997
- +39 333 3511 873
- s.dalledonne@gmail.com
- Casale Corte Cerro, Verbano-Cusio-Ossola, Italy

VOLUNTARY EXPERIENCE

- Grest animator (5 years)
- Peer educator (4 years)
- Cleaning forests (1 time)

SKILLS & COMPETENCIES

- Problem solving
- Decision making
- Teamwork
- Leadership
- Public relationship
